

Jolly Phonics Spellings 16th - 20th March

On the next page you will find our Jolly Phonics Spellings for this week. Just like at school you can learn 5 on Monday, 5 on Tuesday, 4 on Wednesday and 4 on Thursday or whatever way suits best for you. First you can write out the list of words in a copy/on a sheet and look up the meaning of any words you are unsure of in your dictionary.

You can then practice the spellings by:

- 1) Looking at and saying each word out loud.
- 2) Tracing the word in the air with your finger
- 3) Practicing writing the word
- 4) Checking if you have written the word correctly

You could also practice the spellings by putting each word in a sentence and by putting the words in alphabetical order.

Then on Friday ask someone to call out the spellings while you try to write them out on a sheet or in your spare copy. You can then bring this sheet or copy back to school with you when we reopen.

Work It Out Week 23 16th - 20th March

You will also find our Work It Out Activities For Week 23 on page 3 and 4. You can work on these across the week by writing out your answers to the questions on a separate sheet or in a spare copy. You can also bring this sheet/copy back to school with you when we return and we will go back through it together.

Keep an eye out for messages on Study Ladder for any other activities/tasks that will be added later in the week.

Schwa ⟨iɪ⟩

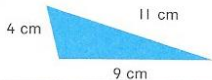

civil
pupil
pencil
weevil
evil
peril

nostril
basil
April
fossil
gerbil
anvil

utensil
tendrils
lentil
council
stencil
tranquil

WEEK 23 – MONDAY

**T
A
B
L
E
S**

- $(5 + 7) - \square = 8$
- $(7 + 8) + \square = 20$
- $(8 + 6) - \square = 5$
- $(9 + 8) - \square = 12$
- $(6 + 7) + \square = 20$
- How much heavier is 2 kg than 700 g?
- How many sides on a pentagon?
- What number follows 1899?
- $0.9 + 1.3 = \square$
- 5 kg of potatoes cost €4.50. What is the cost of 2 kg?
- What is the perimeter of this triangle?

- €120 was shared equally among 8 people. How much did each get?
- How many eighths in 2 units?

- $5 \times 25 \text{ m} = \square$
- $(42 \div 6) + (45 \div 5) = \square$
- Which one of these letters is symmetrical?
 a S b W c F
- Jennifer has €12. Fiona has $\frac{2}{3}$ as much. How much have they between them?
 a €16 b €18 c €20
- What is the area of a rectangle 9 cm long by 5 cm wide?
 a 28 cm^2 b 45 cm^2 c 36 cm^2
- 3 books cost €3.60. How much for 5 books?
 a €7.20 b €6.00 c €16.30
- How much is 0.1 of €80?
 a €8 b €10 c €12
