Code Of Behaviour Policy

Introductory Statement

This policy was originally ratified by the Board Of Management on the 11th March 2010. The current policy was reviewed and amended at a meeting of all teaching and SNA staff which was undertaken as part of Croke Park Hours on 10th November 2020.

Rationale For Formation Of Policy

The staff of St Brigid's National School (Kilmore NS), Dangan decided to review the previous policy and formulate a new policy because:

- the previous policy was due for review and amendment.
- it is a requirement under the Education Welfare Act 2000 Section 23.
- to ensure the policy is in compliance with legal requirements and good practice as set out in "Developing a Code of Behaviour: Guidelines for Schools, NEWB 2008.
- to ensure an orderly climate for learning in the school.

Relationship To Characteristic Spirit Of The School

According to our Mission Statement, our school endeavours to be a place of learning, caring and friendship. To achieve this aim, a high level of respect and co-operation between staff, pupils and parents is required, with all working together in a positive manner to ensure pupils reach their full potential in all areas of their development.

Aims

The school hopes to achieve the following by introducing this policy:

- promote positive behaviour and self-discipline throughout the school, while at the same time recognising that all children are different and the need to accommodate these differences.
- allow the school to function in an orderly and harmonious way.
- enhance the learning environment where children can make progress in all aspects of their development.
- acknowledge the right of each child to education in a relatively disruption free environment.
- create an atmosphere of respect, tolerance and consideration of others.
- ensure the safety and well-being of all members of the school community.
- assist parents and pupils in understanding the systems and procedures that form part of the Code of Behaviour and to seek their co-operation in the application of these procedures.
- ensure that the system of rules, rewards and sanctions are implemented in a fair and consistent manner.
- each pupil is expected to be well behaved and to show consideration and respect for other children and adults.
- each pupil is expected to show respect for property within the school and grounds, other children's and their own belongings.
- each child is expected to attend school on a regular basis and be punctual.
- each pupil is expected to do his/her best in school and for homework.

As outlined in Section 23(4) of the Education Welfare Act, the principal teacher will provide parents with a copy of this Code of Behaviour prior to registering each pupil. Parents will be required to confirm in writing that they accept the code and will make all reasonable efforts to ensure compliance with the code by the child.

Whole School Approach In Promoting Positive Behaviour

Every effort will be made by all staff to adopt a positive approach to behaviour in our school. Praise, rewards and encouragement will be used to motivate pupils. A high standard of co-operation between all educational partners, staff, pupils, parents and local community is expected. Rules are kept to a minimum and positively stated in terms of how pupils are expected to behave. All staff will aim to maintain a positive atmosphere with realistic expectations. Staff will be fair and consistent in the implementation of this policy.

Each teacher has responsibility for discipline within their own classroom and for all pupils under their supervision while on yard duty. Teachers share a common responsibility for good order within the school premises. The Principal has overall responsibility for discipline within the school. The code of behaviour will be made available to all new members of staff and/or substitute teachers.

The schools SPHE plan is used to support the school's Code of Behaviour. It aims to help pupils develop communication skills, appropriate ways of interacting and behaving, and conflict and resolution skills. It also aims to foster self-esteem and to help children accommodate differences and develop citizenship.

Children who present with behavioural difficulties as a result of special educational needs will be set behavioural targets within their Personal Pupil Plan.

The Board of Management has overall responsibility for the ethos of the school alongside the code of discipline and all other school policies. The Board will formally record the adoption of this code, its commencement date and when it should be reviewed. The Board will also ensure that this code is made available to all members of the school community for ideas, questions, views and contributions before it is adopted. The Board promotes opportunities for staff development in the areas of discipline, classroom management and promoting positive behaviour.

The draft code of behaviour is made available to parents. Their comments, views, questions and contributions are welcomed. As previously outlined, a copy of the code is given to parents/guardians prior to enrolment. Parents will be required to confirm in writing that they accept the Code and will make all reasonable efforts to ensure compliance with the code by the child. Parents are welcome to discuss discipline issues with class teachers by making an appointment by phone or by communicating with teacher using their child's homework journal.

At the beginning of each school year, each classroom develops a set of class rules through class discussion. Awards and sanctions are also agreed upon. All classroom rules are positively stated. Class rules are on display in each classroom. Pupils are reminded of school rules regularly.

The pupil will then be re-admitted formally to the class by the principal.
